

HALO Vent Chest Seal and QuikClot EMS Rolled Gauze

1. The Department has added one (1) HALO Vent Chest Seal package (2 seals) and two (2) QuikClot EMS Rolled Gauze to the Trauma Bag on every Ambulance in our fleet. With the addition of these two items, the three (3) Occlusive dressings located in the Basic Bag have been moved to the Trauma Bag as well. All of these items will be located with the CAT Tourniquet.
2. Additionally, the Department has added one (1) QuikClot EMS Rolled Gauze to the BLS bag on every non-transport unit. This item will be located with the CAT Tourniquet.
3. The Ambulance Inventory sheet and the BLS Non-Transport Inventory sheet on the Department Website have been updated to reflect these changes. Updated Inventory Sheets have been placed in each Ambulance and Non-Transport Unit's Red Book. The old sheets have been removed.
4. Staff are reminded not to use the HALO Vent Chest Seals until they have watched the training video. The video can be accessed using the link below:

<https://youtu.be/mxl2A4AtJ14>

5. Staff are reminded that they are not to use the QuikClot EMS Rolled Gauze until they have completed the training listed below:

A) Watch the QuikClot Training Video which can be accessed using the link below:

<http://www.z-medica.com/specialpages/traininglogin.aspx>

B) Turn in the Certificate of Completion for the video to Training 1.

C) Attend one of the Skills Sessions listed on the Department Training Calendar which can be accessed using the link below:
