

Primary Response Station

With the Cross Staffing response model underway, the department needs a means of tracking the use of the Engine company crew on the ambulance.

Response Information

Is the patient a Caroline County resident? Yes 

Name of ride-along/preceptee on truck: N/A

Crew Status: Career 

Station: Ladysmith Fire  

ACTION:

When any district is dispatched to a SECOND EMS call, the station responding should be entered as the Fire District, not the EMS station.

Example:

M211 is dispatched to a sick person at Food Lion and transports the patient. If Ladysmith receives a second EMS call while 211 is out, no matter the crew makeup (ALS or BLS), the second ambulance, 216, should enter Ladysmith Fire as their station.
